

**PL 20 SALT****PL 30 SALT**

PL 20 and PL 30 Series Salt chlorinators

The PowerLine 20 and PowerLine 30 salt water chlorinators provide a high-quality, reliable sanitisation solution for those that prefer a salt or mineral salt pool.

The PowerLine series is available in 20g/hr and 30g/hr output, with optional pH control and additional timed power outlets.

The easiest way to sanitise a pool is to generate chlorine from sodium chloride (salt) by passing the pool water through an electrolytic cell. The PowerLine series of salt water chlorinators allow you to continually generate chlorine at a reliable, controlled rate - ensuring your pool is balanced and safe to swim in.

- **Fully-automated digital timer function**
- **Reverse-polarity (self-cleaning) electrolytic cell**
- **Australian-made**
- **Optional pH control**
- **Optional additional timed power outlets**

POWERLINE SERIES

Water Management Automation for Salt and Mineral Pools

The PowerLine series of salt water chlorinators come packed with safety features to make your life easier and keep your pool clean and safe to swim in.

The PowerLine's self-cleaning electrolytic cell constantly produces chlorine at a steady rate while the pump and filtration system is running.

Select the PowerLine model best suited to your pool:

Model	Recommended salt level (ppm)	Output (g/hr)	Pool Size Cool/Temperate Climate (Litres)	Pool Size Tropical Climate or heated (Litres)
PL20	4000	20	20,000 to 60,000	20,000 to 40,000
PL30	4000	30	50,000 to 150,000	50,000 to 100,000

3 Year Warranty*

PowerLine Series salt chlorinators are manufactured for Hayward in Australia and come with a full 3 year warranty on both the controller and the electrolytic cell (when used in domestic installations).

* For full terms & conditions please refer to manual

Optional Accessories

PowerLine Series salt chlorinators are simple to program and give you complete control of when your pool's pump and filtration system is running.

The PowerLine Series salt chlorinators also come with additional timed power outlets that can be programmed to control additional accessories for your pool.

For example, auxiliary pumps, in-floor cleaners and pool lighting can all be programmed to operate automatically via your PowerLine salt chlorinator.
