

Super II[™]

HIGH-PERFORMANCE PUMP SERIES

Performance of a lifetime

Power your system with the energy efficient, Super II pump series from Hayward®. These efficient, high performance pumps are built to last and engineered to perform even under the most demanding conditions.

Convenient features include a see-through cover so pool owners know exactly when to empty the extra-large debris basket.

Performance features include full-flow hydraulics that allow greater flow at a lower cost of operation and a housing design that makes it as quiet as it is dependable.

See-Through Strainer Cover

Lexan cover lets you see when basket needs cleaning and eliminates guesswork. This basket has rigid construction including load-extender ribbing for free-flowing operation.

Simple Access

to all internal parts. Motor and entire drive group assembly can be removed, without disturbing pipe or mounting connections, by disengaging just six bolts.

Heavy-Duty, High-Performance Motor

with airflow ventilation for quieter, cooler operation.

Uni-Bracket Mounting Base

provides stable, stress-free support, plus versatility for any installation requirement.

Full Flow Hydraulics

allow greater flow at a lower cost of operation.

Self-Priming

Suction lift up to 2.4M above water level.

Super II Basket

is more like a bucket with impressive leaf holding capacity. Rigid construction includes load-extender ribbing for free flowing operation, even under extra-heavy debris loads.

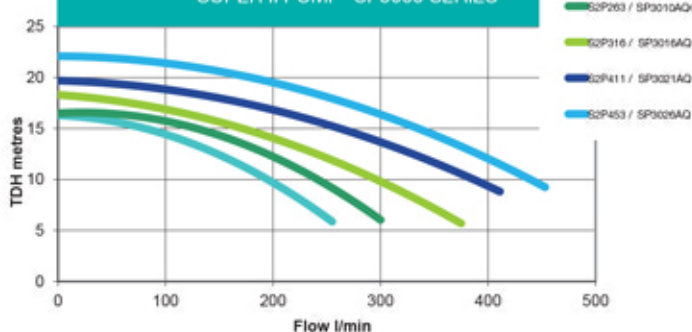

High Quality

Industrial- Size Carbon Ceramic Mechanical Seal

Performance Curve - Flow (lpm) vs Head Loss (m)
