

StarClear™ Plus

CARTRIDGE FILTERS

Crystal Clear Results.

StarClear™ Plus filters from Hayward® deliver quality, value and convenience in cartridge filtration. From precision engineering to its durable glass reinforced co-polymer body, StarClear™ Plus filters work harder, achieving maximum water flow and superior filtration with minimal maintenance required.

Trust StarClear™ Plus filters to perform in the most demanding applications and environmental conditions. Thanks to its larger filtration element, it utilises a greater effective filtration area than cartridge filters of similar size and price range. For greater performance, higher efficiency and crystal clear results, step up to StarClear™ Plus.

Single Locking Knob

- securely fastens filter head to single piece injected filter base without tools.

Filter Head

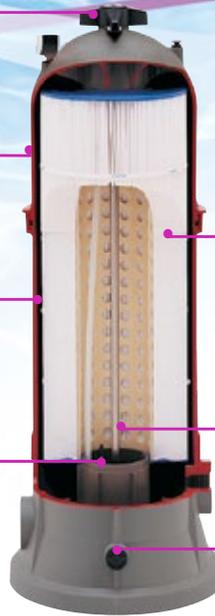

- provides easy access to cartridge element. May be rotated to conveniently position gauge and manual air relief valve.

Heavy-Duty Filter Tank

- Injection moulded of durable glass reinforced co-polymer for dependable corrosion-free performance.

Elevated Water Collector & Debris Sump

- prevents accidental bypass of heavy debris to pool or spa when cartridge is removed for cleaning.

StarClear™ Plus Filter: For Your Swimming Pool

Single Cartridge Element

- engineered of high quality reinforced polyester with gasket moulded end caps for maximum efficiency, easier cleaning and longer life.

Precision Engineered Element Core

- provides extra strength and superior flow.

Filter Drain

- for fast draining - accepts standard spigot.

Model Number	Surface Area	Design Flow (lpm)	8 Hr Turnover (Litres)	Number of Cartridges	Cartridge Microns	Diameter (mm)	Height (mm)	Unit Wt. (kgs)	Unions (mm)
C9002C	90 ft² / 8.36 M²	341	163 680	1	13	340	762	7	50
C15002C	150 ft² / 13.94 M²	455	218 400	1	13	340	915	10	50
C2002C	200 ft² / 18.58 M²	455	218 400	1	13	340	1093	12	50

*Up to 80% savings on energy costs compared to backwashing and rinsing heated, treated water on sand filtration systems.

Features of the Hayward® StarClear™ Plus cartridge filter:

- Injected moulded glass reinforced co-polymer for durability.
- Extra large, extra strong extruded core cartridge element.
- Integral drain for fast and easy draining.
- Self-aligning rotatable top for quick and easy access.
- Elevated water collector with sump prevents debris bypass.
- Single locking knob securely and easily fastens filter head.
- Includes Cleva™ 50mm unions.
- Hayward® Filtration with NSF commercial rating certification.

Combination pressure and cleaning cycle indicator gauge gives visual cues when cartridge elements need cleaning.

Cleva™ union fittings provide extra strength, quick connections and maximum full flow hydraulic performance.

Features Hayward® four ounce reinforced polyester cartridges engineered for extra holding capacity and durability.

StarClear™ Plus is NSF rated, representing a commitment to quality, compliance and safety while ensuring product exceeds rigorous commercial certification process.
