

HAYWARD®

PUMPS

Booster Pump

**Quiet, Energy Efficient
With Added Flood Protection**

The Hayward booster pump is exceptionally quiet and uses up to 40% less electricity than other models. Both 1½" pipe unions and ¾" hose fittings are included to provide easy installation and service for new construction and replacement applications. It is also equipped with an elevated base for increased motor ventilation as well as added protection from flooding.

Exceptionally Quiet

Uses up to 40% less electricity than other booster pumps

Elevated Motor

1½" unions

¾" Hose Barb Adapters

Booster Pump Features & Benefits

- Exceptionally quiet.
- Uses up to 40% less electricity than other booster pumps.
- 1½" plumbing union fittings improve performance and allows easy installation and removal.
- ¾" hose barb union adapters allow for easy retro fit to existing installations using flexible hose for booster pump connections.
- Suitable for all pressure cleaners requiring a booster pump.
- Tall mounting base allows for increased motor ventilation as well as protection from flooding.
- Volute may be re-oriented in the field for horizontal discharge.

Overseas Superpump model featured and manufacturer may change specifications from those published without notice.

Booster Pump	Total Horsepower	Volts	Watts Input
SP6060PP	1.25	240	1240

Note: Does not include optional ¾" retrofit hose kit, P/N 6060HKIT
